

\$ ps -ef | grep - smon .

\$ cat /etc/oratab .

13

\$ cd /u02/app/oracle/orcl/

o fsol .

\$ emctl status dbconsole

\$ echo \$ORACLE_HOME

- orcl .

\$ ll .

⑤ Topic:- Enable/Disable block change Tracking (Use SQL not RMAN)
(to keep information abt incremental & full backup of RMAN)

\$ Export ORACLE_SID = orcl .

\$ sqlplus / as sysdba .

SQL> startup .

SQL> select filename, status, bytes from v\$block-change

tracking
SQL> alter database enable block change Tracking using

file '/u02/app/oracle/orcl/bct/bct1.log';

SQL> Alter database disable block change tracking;

NOTE:- To increase & improve the performance of RMAN incremental backup .
