

Topic:- How to Recreate a Dropped / Deleted Data - Dictionary view:-

\$ EXPORT ORACLE\_SID= ORCL

\$ salplus / as sysdba

SQL> startup

SQL> select name from v\$ database;

SQL> drop view dba-tablespaces;

SQL> select tablespace\_name from dba-tablespaces;

SQL> @ ? \rdbms\admin\catalog.sql;

↓  
attome

(Some errors: its ok no problem 😊)

SQL> select view\_name from dba-views;

(it works agn)

SQL> shutdown immediate;

SQL> startup;

SQL> select view\_name from dba\_views where view\_name = 'DBA-VIEWS';

NOTE:- This will work for (all-view & user-view also),
